REVIEW OF CORNEA & CONTACT LENSES

2023

From the makers of the #1-prescribed dry eye brand in Europe*

Covering the spectrum of *Dry Eye Relief*

Over-the-counter iVIZIA[®] lubricant eye drops deliver a unique combination of immediate and long-lasting relief and ocular surface protection in a preservative-free formulation.

Advanced formulation for patients with dry eye offers a combination of povidone (active), hyaluronic acid (HA), and trehalose

Chronic Dry Eye Patient Usage Study[†]:

Up to **8 hours**
of relief as well as improved
comfort during[‡]:

• computer work • reading • driving

84%
of users reported iVIZIA
worked better than their
previous eye drops[‡]

**Recommend iVIZIA and request samples
by visiting [iVIZIA.com/ECP](https://www.ivizia.com/ECP).**

Scan here.

**Safe for use with
contact lenses[‡]**

*Prescription market data, Dec. 2022 – S01K without cyclosporine.

[†]In a chronic dry eye patient usage study, participants from a variety of socioeconomic backgrounds answered questions about iVIZIA. There were 203 chronic dry eye patients, ranging from ages 28-80, who used their current eye drops before switching to iVIZIA for 30 days.

[‡]To limit blurriness when using contact lenses, remove contacts, apply drops, then insert contacts.

Covering the spectrum of *Lid Hygiene*

The comprehensive iVIZIA product line includes these eyelid hygiene products:

iVIZIA Eyelid Cleansing Wipes—convenient daily cleansing for sensitive eyelids

iVIZIA Micellar Eyelid Cleanser—economical daily cleansing for eyelids with a micellar BAK-free formulation

iVIZIA Eyelid Cleansing Gel—daily cleansing for sensitive eyelids, using proprietary Steri-Free® Technology and dispensed via the Mega Airless Pump

REVIEW OF CORNEA
& CONTACT LENSES

2023 Annual Contact Lenses and Lens Care Guide

Unlimited options to help you find the right choice for each patient.
Details inside.

Unique never felt so good.

Unique pH™ is a highly effective multipurpose solution for gas permeable contact lenses that cleans, conditions, and disinfects in one bottle.

Unique pH™ conditions lenses by adjusting to the eye's natural tear pH to enhance the wettability and comfort of gas permeable contact lenses on insertion. The formula is designed to provide a soothing effect during lens wear.

Complimentary starter kits available!

ALL THOSE IN FAVOR OF PRESERVATIVE FREEDOM, **SAY EYE**

As eye care professionals, eye drops play a central role in the care we provide for our patients. Many prescription and OTC eye drops continue to include preservatives—compounds that are proven deleterious to the ocular surface.

Preservative Freedom is a commitment to preserve patient eye health.

**We're pledging to break through our indifference and old habits,
and to do so while keeping our patients' eye care as the highest priority.**

**PRESERVATIVE
FREEDOM**

Learn more, and join the movement at

CONSISTENT POWER FOR CONSISTENT RESULTS

MARK SCHAEFFER, OD
MyEyeDr., Birmingham, AL

APPROACHING CONTACT LENSES FOR PRESBYOPES

The growing prevalence of presbyopia is significant for eyecare practitioners in many ways. The number of presbyopes was estimated to be 1.09 billion in 2015,¹ and both the age of lens wearers and the number of multifocal contact lens fittings have increased across several countries between 2000 and 2020.² Accordingly, eyecare providers may have more opportunities to approach the topic of multifocal contact lenses with presbyopes than ever before.

Age, lifestyle, previous lens wear experience, motivation, and fitting expectations are a few important examples of patient-specific factors that can help shape the discussion and determine patient needs. Yet some eyecare practitioners may have other considerations when contemplating multifocal contact lenses as an option for correcting presbyopia.² They may be particularly mindful of previous unsuccessful wearing trials and/or lenses that have failed to provide both comfort and visual acuity at all distances.² Though they may not form the basis of a patient discussion regarding contact lenses, optical design features are important distinguishers for multifocal lens selection. Bausch + Lomb's lens design team has optimized multifocal contact lenses with the 3-Zone Progressive™ Design to help provide fitting success and an exceptional visual experience for patients.

THE MODERN PRESBYOPE

In today's digital age, presbyopes require near and intermediate visual acuity for many of their daily visual habits involving computers, smartphones, and tablets. For eyecare providers, a critical first step is proactive discussion about how near vision can be corrected with multifocal contact lenses for existing presbyopes and patients transitioning to presbyopia.³ Patients with lifestyles

that involve considerable time in front of digital screens can benefit from a contact lens with material properties that balance moisture and oxygen transmissibility. In addition to comfort and visual clarity at shorter distances, presbyopes' visual demands often include tasks that require frequent transitions across multiple distances.

CONSISTENCY THROUGH DESIGN

Bausch + Lomb developed the 3-Zone Progressive™ Design to deliver consistent vision at near, intermediate, and distance. Computer eye modeling was incorporated during design development to optimize visual performance by incorporating 7 biometric factors across nine distances to support visual outcomes. Computer eye modeling was used as a method to predict visual acuity scores for computer-generated multifocal lens designs for each eye.⁴

Additionally, Bausch + Lomb's lens design team applied finite element modeling to determine how contact lenses conformed to steep and flat corneas, evaluate how a lens fit with specific corneal shapes, and assess the effect of a contact lens through a blinking motion on optical performance. Prediction of the contact lens' optical properties and performance through modeling was an important tool to account for individual contact lens wearer variability and for development of the resulting 3-Zone Progressive™ Design.⁴

A PREDICTABLE FIT

Bausch + Lomb's multifocal contact lenses incorporate the 3-Zone Progressive™ Design and subsequently utilize equivalent fitting guide instructions, allowing for a simplified and intuitive fitting process. Initial lens selection is based on the updated spherical equivalent of the lens wearer's

distance prescription and selection of the appropriate Add for that patient's needs. Notably, 100% of eyecare practitioners surveyed who followed the fitting guide with a simple 2-ADD system for 3-Zone Progressive™ Design lenses agreed that the fitting process for the lens was easy for patients.⁵

Bausch + Lomb's 3-Zone Progressive™ Design helps facilitate a predictable fit with consistent add power at every power. The exceptional vision and seamless transitions across all distances can in turn lead to a successful fitting period that is often instrumental to multifocal contact lens continuation.

Bausch + Lomb has now developed a new one-day multifocal contact lens with the 3-Zone Progressive™ Design. Bausch + Lomb INFUSE® Multifocal lenses are built on a next-generation silicone hydrogel material (kalifilcon A), which was designed to help maintain ocular surface homeostasis. The lens material is infused with a proprietary combination of osmoprotectants, electrolytes, and moisturizers called ProBalance Technology®.⁵ The material properties of INFUSE® can help play a key role in allowing a comfortable wearing experience for presbyopes.

Discussing multifocal contact lenses with presbyopes can benefit from a multifactorial approach that identifies optical design as an important contributor to visual performance, wearer satisfaction, and fitting success. The combination of the next-generation material, ProBalance Technology and the 3-Zone Progressive™ lens design in INFUSE® Multifocal contact lenses builds confidence among eyecare practitioners and patients.

YOUR PATIENTS, OUR PASSION

As the most experienced specialty contact lens laboratory in the country, we've focused on partnering with practitioners to optimize correction for their visually demanding patients since 1958. Our category leading lens designs are supported by a trusted team of dedicated consultants, service specialists, and production professionals who are passionate about maximizing specialty lens success for you and your patients. Put our unmatched experience and No-Worry Warranty to work in your practice and fit with confidence.

Cornea Scleral Profile Scan for Pentacam®

Beyond the Cornea!

Pentacam® CSP Report – A new level of accuracy

Measure beyond past boundaries when fitting scleral lenses. The CSP Report creates 250 images within the measuring process. The tear film independent measurement with automatic release allows coverage up to 18 mm with the same fixing point.

Re-invent Your Practice For a **Brighter Future.** WITH SPECIALTY CONTACT LENSES

In today's optometric marketplace, it is becoming increasingly important to differentiate yourself and your practice in order to avoid being replaced by online retailers and internet "eye exams." One option is the incorporation of specialty contact lenses. While most practitioners think of scleral lenses and ortho-k, specialty contact lenses encompass everything from fitting a keratoconic to normal presbyopes. Today's specialty contact lens practices offer personalized solutions that fit a patient's individual needs.

As a full service custom contact lens lab, we can help reinvent your practice by offering:

- Personalized education, both virtually, and hands-on, for fitting and incorporating specialty lenses into your practice
- Capability to custom make the lenses your patients need
- NCLE certified experts with over 250+ years experience to lean on every step of the way
- Custom lenses that ship within **24 to 48 hours**
- Risk-free, easy-to-use warranties featuring **unlimited exchanges** within 120 days
- A Flexible Exchange and Credit option requiring no physical return of the product
- Utilization of industry KOL's for education and development of new products

Visit our website to learn more or call and speak to one of our NCLE certified consultation experts today!

SECOND ANNUAL

Supplement to *Review of Optometry*

COMING
IN AUGUST

Practical Matters in Myopia Management

Proven strategies from experts to help you build confidence and improve your success rate.

As optometrists continue to embrace myopia interventions, they need concrete guidance on best practices for this new area of care. Questions of patient selection, treatment efficacy, parent “buy-in” and the practice’s equipment needs can be a deterrent to enthusiasm among ODs. This supplement will guide optometrists through many of the practical challenges that might otherwise prevent them from pursuing myopia management.

Topics:

- **Myopia Management: What Does Success Look Like?**
- **All About Atropine: Do’s, Don’ts and Debates**
- **Curtailing Myopia Progression with Corrective Lenses**
- **Anti-Myopia Efforts Patients and Parents Can Try Today**

SOFT LENS CARE

Manufacturer	Name	Active Ingredients & Preservatives
Daily Cleaners		
Alcon	Opti-Free Puremoist	Sodium citrate, sodium chloride, boric acid, sorbitol, aminomethylpropanol, disodium EDTA, tetrionic 1304, HydraGlyde. Preserved with Polyquad 0.001% and Aldox 0.0006%.
Bausch + Lomb	Sensitive Eyes Daily Cleaner	Hydroxypropyl methylcellulose, poloxamine, sodium borate, sodium chloride. Preserved with edetate disodium 0.5% and sorbic acid 0.25%.
Lobob Laboratories	Sof/Pro 2 Extra Strength Daily Cleaner	Purified water, isopropyl alcohol 15.7%, poloxamer 407, amphoteric 10.
Optikem International	Sereine Extra Strength Daily Cleaner	Amphoteric surfactant, poloxamer 407, isopropyl alcohol.
Disinfecting Systems		
Alcon	Opti-Free Multi-Purpose Solution	Tetrionic 1304, sodium citrate, AMP-95, boric acid, sodium chloride, sorbitol, edetate disodium, Polyquad 0.001%, Aldox 0.0005%.
	Clear Care Cleaning & Disinfecting Solution	Hydrogen peroxide 3%, sodium chloride 0.79%, phosphonic acid, phosphate buffer, pluronic 17R4. Preservative-free.
	Clear Care	Hydrogen peroxide 3%, sodium chloride 0.79%, phosphonic acid, pluronic 17R4.
	Clear Care Plus	Hydrogen peroxide 3%, phosphonic acid, sodium chloride 0.79%, phosphate, pluronic 17R4, HydraGlyde.
Bausch + Lomb	Biotrue Multi-Purpose Solution	Hyaluronan, sulfobetaine, poloxamine, boric acid, sodium borate, edetate disodium, sodium chloride. Preserved with polyaminopropyl biguanide 0.00013% and polyquaternium 0.0001%.
	Renu Advanced Formula Multi-Purpose Solution	Poloxamine, poloxamer 181, diglycine, sodium citrate, boric acid, sodium borate, edetate disodium, sodium chloride. Preserved with polyaminopropyl biguanide 0.00005%, polyquaternium 0.00015% and alexidine 0.0002%.
Johnson & Johnson Vision Care	Acuvue Revitalens Multi-Purpose Disinfecting Solution	Alexidine dihydrochloride 0.00016%, polyquaternium-1 0.0003% as preservatives/disinfectants; boric acid, sodium borate, tetrionic 904, edetate disodium, sodium chloride and purified water.
	Complete MPS Easy Rub Formula	Polyhexamethylene biguanide 0.0001%, phosphate buffer, poloxamer 237, edetate disodium, solution chloride, potassium chloride, purified water. Contains no chlorhexidine or thimerosal.
	Oxysept	Disinfecting solution: hydrogen peroxide 3% (stabilized with sodium stannate and sodium nitrate, buffered with phosphates) and purified water. neutralizing tablets: catalase, hydroxypropyl methylcellulose and cyanocobalamin (vitamin B12) with buffering and tableting agents.
Enzymatic Cleaners		
Bausch + Lomb	Boston One-Step Enzymatic Cleaner	Proteolytic enzyme (subtilisin), glycerol. Preservative-free.
Johnson & Johnson Vision Care	Ultrazyme Enzymatic Cleaner	Subtilisin A.
Non-preserved Saline		
Menicon America	LacriPure Saline Solution	Sodium chloride. Preservative-free.
Purilens	Purilens Plus Preservative Free Saline	Sodium chloride. Preservative-free.
Non-thimerosal Preserved Saline		
Alcon	Clear Care Rinse & Go	Sodium chloride, citrate, citric acid, edetate disodium 0.05% and Polyquad 0.001%.
Bausch + Lomb	Sensitive Eyes Plus Saline Solution	Boric acid, sodium borate, potassium chloride, sodium chloride. Preserved with polyaminopropyl biguanide 0.00003% and edetate disodium 0.025%.
Rewetting Drops		
Alcon	Systane Contacts Rewetting Drops	Dextran, sodium chloride, potassium chloride, hydroxypropyl methylcellulose. Preserved with edetate disodium 0.1% and Polyquad 0.001%.
	Opti-Free Express Rewetting Drops	Citrate buffer, sodium chloride, edetate disodium 0.05%, Polyquad 0.001%.
	Opti-Free Puremoist Rewetting Drops	Citrate/borate, sodium chloride, edetate disodium 0.05%, Polyquad 0.001%, RLM-100 (PEG-11 lauryl ether carboxylic acid), tetrionic 1304.
	Opti-Free Replenish Rewetting Drops	Citrate/borate, sodium chloride, edetate disodium 0.05%, Polyquad 0.001%, RLM-100 (PEG-11 lauryl ether carboxylic acid), tetrionic 1304.
Allergan	Refresh Contact Lens Comfort Drops	Carboxymethylcellulose sodium, sodium chloride, boric acid, sodium borate decahydrate, potassium chloride, calcium chloride, magnesium chloride, purified water. May also contain hydrochloric acid and/or sodium hydroxide to adjust pH. Preserved with Purite (stabilized oxychloro complex).
Bausch + Lomb	Renu Contact Lens Moisture Drops	Povidone, boric acid, potassium chloride, sodium borate, sodium chloride. Preserved with edetate disodium 0.1% and sorbic acid 0.1%.
	Sensitive Eyes Rewetting Drops	Boric acid, sodium borate, sodium chloride. Preserved with sorbic acid 0.1% and edetate disodium 0.025%.
	Blink-N-Clean Lens Drops	Purified water, sodium chloride, polyhexamethylene biguanide 0.0001%, tromethamine, hydroxypropyl methylcellulose, tyloxapol and edetate disodium.
	Blink Contacts Lubricant Eye Drops	Purified water, sodium hyaluronate, sodium chloride, potassium chloride, calcium chloride, magnesium chloride and boric acid. Preserved with OcuPure (stabilized oxychloro complex) 0.005%.
	Biotrue Hydration Boost Contact Lens Rehydrating Drops	hyaluronan, sulfobetaine, poloxamine, boric acid, sodium borate, edetate disodium and sodium chloride. Preservative-free.
Johnson & Johnson Vision Care	Visine for Contacts	Borate buffer, hypromellose, glycerin. Preserved with potassium sorbate and edetate disodium.

Review Tops the Charts Again!

REVIEW of OPTOMETRY

The OD's FIRST CHOICE

Practitioners rely on *Review of Optometry* more than any other eye care publication

Ranked #1
Eye Care Publication

Review also is number one in readership across the following categories:

- Total Optometrists
- ODs in High-Volume Practices (76pts/wk)
- Solo Practitioners
- Annual Practice Revenue (\$500k+)
- ODs who Purchase Examination Equipment
- Write Prescriptions (11+ per week)
- Perform Refractions (51+ per week)
- Contact Lens Prescribers
- Years in Practice (1-15 and 15+)
- Among Key Opinion Leaders

To our readers: Thank you for your loyalty, time and trust. We'll keep working hard to earn your support.

GP/SCLERAL LENS CARE		
Manufacturer	Name	Active Ingredients & Preservatives
All-in-one Solutions		
Bausch + Lomb	Boston Simplus Multi-Action Solution	Poloxamine, hydroxyalkylphosphonate, boric acid, sodium borate, sodium chloride, hydroxypropylmethyl cellulose, glucam. Preserved with chlorhexidine gluconate 0.003% and polyaminopropyl biguanide 0.005%.
Menicon America	Unquie pH	Hydroxypropyl guar, polyethylene glycol, tetric 1304, boric acid, propylene glycol and is preserved with polyquad 0.0011% and edetate disodium 0.01%.
Cleaning/Soaking Solutions		
Menicon America	Menicon Progent	Solution A: sodium hypochlorite (NaClO), sodium carbonate, sodium hydroxide, purified water. Solution B: potassium bromide, sodium carbonate, purified water. Rinse: sterile purified water.
Optikem International	Sereine Soaking and Cleaning Solution	Nonionic and amphoteric surfactants, buffers, edetate disodium 0.25%, benzalkonium chloride 0.01%. Preserved with edetate disodium and benzalkonium chloride.
Daily Cleaners		
Alcon	Opti-Free PureMoist	Sodium citrate, sodium chloride, boric acid, sorbitol, aminomethylpropanol, disodium EDTA, tetric 1304 and HydraGlyde with polyquad 0.001% and aldox 0.0006% preservatives.
	Opti-Free Replenish	Sodium citrate, sodium chloride, sodium borate, propylene glycol, tetric 1304, nonanoyl ethylenediaminetriacetic acid with polyquad 0.001% and aldox 0.0006% preservatives.
	Opti-Free Express	Sodium citrate, sodium chloride, boric acid, sorbitol, aminomethylpropanol, tetric 1304 with edetate disodium 0.05%, polyquad 0.001% and aldox 0.0006% preservatives.
Bausch + Lomb	Boston Advance Cleaner	Alkyl ether sulfate, ethoxylated alkyl phenol, tri-quaternary cocoa-based phospholipid, silica gel, titanium dioxide.
	Boston Original Cleaner	Alkyl ether sulfate, silica gel, titanium dioxide, fragrance.
Optikem International	Sereine Cleaner	Amphoteric surfactants, edetate disodium 0.10% and benzalkonium chloride 0.01%.
Enzymatic Cleaners		
Bausch + Lomb	Boston One Step Liquid Enzymatic Cleaner	Proteolytic enzyme (subtilisin), glycerol. Preservative-free.
Laboratory Strength Cleaners		
Bausch + Lomb	Boston Laboratory Lens Cleaner	Water-soluble surfactants, 10% 2-propanol.
Rewetting Drops		
Bausch + Lomb	Blink Contacts Lubricating Eye Drops	Purified water, sodium hyaluronate, sodium chloride, potassium chloride, calcium chloride, magnesium chloride, boric acid; preserved with stabilized oxchloro complex 0.005%.
	Blink-N-Clean Lens Drops	Purified water, sodium chloride and preserved with polyhexamethylene biguanide 0.0001% tromethamine, hydroxypropyl methylcellulose, tyloxapol and edetate disodium.
	Boston Rewetting Drops	Hydroxyethyl cellulose, polyvinyl alcohol, cationic cellulose derivative polymer. Preserved with chlorhexidine gluconate 0.006% and edetate disodium 0.05%.
Alcon	Opti-Free Replenish Rewetting Drops	Citrate/borate buffer and sodium chloride with edetate disodium 0.05%, polyquad 0.001%, RLM-100 (PEG-11 lauryl ether carboxylic acid) and tetric 1304.
	Systane Contacts Rewetting Drops	Dextran, sodium chloride, potassium chloride, and hydroxypropyl methylcellulose, with edetate disodium 0.1% and polyquad 0.001% preservatives.
Optikem International	Sereine Wetting Solution	Polyvinyl alcohol, buffers, edetate disodium 0.1% and benzalkonium chloride 0.01%.
Wetting/Soaking Solutions		
Bausch + Lomb	Boston Advance Conditioning Solution	Cationic cellulose derivative polymer, cellulosic viscosifier, polyvinyl alcohol, derivatized polyethylene glycol. Preserved with chlorhexidine gluconate 0.003%, polyaminopropyl biguanide 0.0005% and edetate disodium 0.05%.
	Boston Original Conditioning Solution	Cellulosic viscosifier, cationic cellulose derivative polymer, polyvinyl alcohol. Preserved with chlorhexidine gluconate 0.006% and edetate disodium 0.05%.
Optikem International	Sereine Wetting and Soaking Solution	Preserved with edetate disodium and benzalkonium chloride.

Want to fit more patients than ever before?

YOU'RE GOLDEN

You're a hero to your patients—especially those who thought they could never wear contacts. Biofinity® XR toric and toric multifocal are available in more than **238,000 unique prescriptions**¹—more than 7x the parameter options of all other monthly brands combined². Which means you can give virtually all of your patients incredible comfort thanks to Aquaform® Technology and grow your business at the same time.^{3,4} With Biofinity®, you're golden.

Biofinity® | CooperVision®
XR toric | toric multifocal

NOW
AVAILABLE
FASTER

1. CVI data on file, 2023. Based on total number of prescription option combinations (for sphere, cylinder, axis and add - including D & N combinations) manufactured.
2. CVI data on file, 2020. Based on number of parameter options available in the USA across all so lenses from the 4 main manufacturers as reported by Tylers Quarterly Sept 2020.
3. CVI data on file 2021. Rx coverage database; 14-70 years.
4. CVI data on file 2022. Based on global product sales and internal estimates of products using Aquaform® Technology over 12 months in 2022.
